Conformity in accordance with REACH Regulation (EC) No. 2019/1021 of July, 04th 2020

Dear Sir/Madam,

We, the company ORGATEX GmbH, do not trade in substances. All of our products are articles. Under REACH, no articles can be registered. It is only the individual substances contained in articles which can be registered. Therefore, no direct registration obligation exists for our products.

As a developer, manufacturer and distributor of organisational products, we are regarded as a downstream user under the REACH Regulation; this means that our main obligation is to inform our suppliers about our areas of application and to consult our customers about their areas of application, if these are not known.

We maintain constant close contact with our suppliers and can assure you that, based on our enquiries and investigation, we do not currently use any materials or substances that are not, or are not going to be, registered under the REACH Regulation. Detailed information on products containing substances subject to declaration can be found in the Appendix.

We will of course inform you immediately should any important changes result from the updating of the Candidate List.

If you have any further questions, please do not hesitate to contact us.

Best regards

ORGATEX GMBH

Attachment: Declarable materials

2014

Changeover of materials

Our switch to using ortho-phthalate-free soft films was gradually implemented by the end of 2013/beginning of 2014. Since this successful changeover, almost none of our products have been subject to the REACH Regulation.

January 2020

Updating of the SVHC (substances of very high concern) Candidate List

As a result of the updating of the SVHC Candidate List, more substances require declaration. Following this update, it is the case that the declaration obligation only applies to the articles named in our list of ORGATEX articles subject to declaration.

June 2023

Updating of the SVHC (substances of very high concern) Candidate List

The update to the Substances of Very High Concern (SVHC) Candidate List has resulted in the identification of additional substances subject to declaration requirements. Following this update, only the specified articles in our list of declarable ORGATEX products are affected. This update is in accordance with "Regulation (EU) 2023/1132 of June 8, 2023, amending Regulation (EC) No 1907/2006 concerning carcinogenic, mutagenic, or reproductive toxic substances subject to restrictions.
