Compliance with the REACH Regulation

Dir Sir or Madame,

We, ORGATEX GmbH, do not trade in substances; all our products are articles. Under REACH, only individual substances contained within articles can be registered—not the articles themselves. Therefore, our products are not subject to direct registration requirements.

As a developer, manufacturer, and distributor of organizational equipment, we are considered a downstream user under the REACH regulation. Our main responsibility is to inform our suppliers about our fields of application and, if not already known, to coordinate with our customers regarding their intended uses.

We maintain close contact with our suppliers and can assure you that, to the best of our knowledge, we currently do not use any materials or substances that are not or will not be registered under the REACH regulation. Detailed information on products containing substances subject to declaration can be found in the attached document. Should any significant changes arise from updates to the candidate list, we will, of course, inform you immediately.

Should you have any further questions, we will be happy to assist you.

Kind regards,

ORGATEX GMBH

Annex: Substances Subject to Declaration

2014

Material Change

The transition to ortho-phthalate-free soft films was carried out progressively until the end of 2013 and early 2014. Since this successful transition, nearly none of our products fall under the scope of the REACH regulation.

January 2020

Update: Update of the SVHC Candidate List

With the update of the SVHC Candidate List, additional substances subject to declaration have been identified. Following this update, only the specified items listed in our overview of ORGATEX articles subject to declaration continue to be affected.

June 2023

Update: Update of the SVHC Candidate List

With the update of the SVHC Candidate List, additional substances subject to declaration have been identified. Following this update, only the specified items listed in our overview of ORGATEX articles subject to declaration continue to be affected.

This update was made through Regulation (EU) 2023/1132 of 8 June 2023, amending Regulation (EC) No 1907/2006 with regard to carcinogenic, mutagenic, or reproductive toxic substances that are subject to restrictions.

June 2025

Update: Update of the SVHC Candidate List

With the update of the SVHC Candidate List, additional substances subject to declaration have been identified. Following this update, only the specified items listed in our overview of ORGATEX articles subject to declaration continue to be affected.

This update was made through the EU Regulation of 25 June 2025, amending Regulation (EC) No 1907/2006 with regard to carcinogenic, mutagenic, or reproductive toxic substances that are subject to restrictions.
