**EU Directive RoHS 2002/95/EC, 2011/65/EU, 2015/863/EU**

Dear Sir/Madam,

The RoHS Directive legislates the use of certain hazardous substances in electrical and electronic equipment, as well as the use of these hazardous substances in electronic components.

The products manufactured and distributed by ORGATEX GmbH do not constitute electrical or electronic equipment or electronic components and are not intended to be incorporated in such equipment. It is possible for our products to be used in production facilities of electrical and electronic articles, for example as process-related auxiliary aids. However, this does not mean that our products fall within the scope of the RoHS Directive.

If you have any further questions, please do not hesitate to contact us.

Best regards

**ORGATEX GMBH**
